Seeking Education and Work Experience?

► **Project FUTRE is an Education & Apprenticeship Program** designed to offer you both education and work experience to become a Behavioral Health Paraprofessional trained to work with families that experience the impacts of opiate misuse and substance use disorder. As an apprentice you will hold a unique position to reach out and support other parents and family members through your own lived experiences.

Certification: \$750 monthly stipend + \$500 completion bonus!

- Six-month certification training in Family Support and Recovery concepts.
- Certification as Parent and Family Support Specialist (must qualify).
- CPR/First Aid and assistance with AZ Fingerprint Clearance.
- Hands on learning and job shadowing with a local health and wellness organization.

Please note that classroom education will be held on-line until further notice.

Apprenticeship (Separate application, optional)

- Twelve-month employment opportunity with local health and wellness organization as an apprentice.
- Full-time hours and health benefits.
- \$500 apprenticeship completion bonus.
- Mentorship and clinical guidance.

Who can apply?

Individuals who self-identify as being a parent or family member of an individual with an opioid use or substance use experience.

To participate you will need:

- Computer with camera*
- Internet*
- Commitment to your employment goals

**Support is available to access computers and internet.*
