

ABRAMS FAMILY MEDICINE CLINIC

A Designated COVID-19 Testing Center

Abrams FCM,

I wanted to reach out to thank everyone for the amazing collaboration and work over the past five weeks. I have spent some short intermittent times at Abrams over the past year filling in for precepting when needed, but the past five weeks has been a very valuable experience for me.

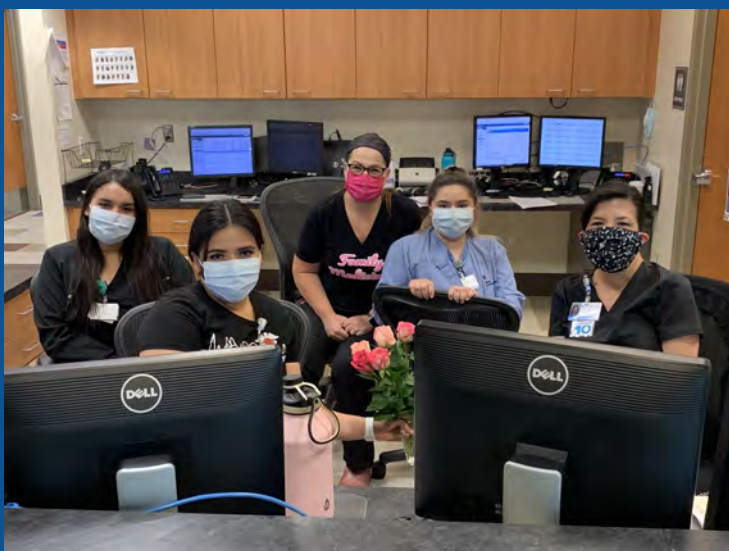

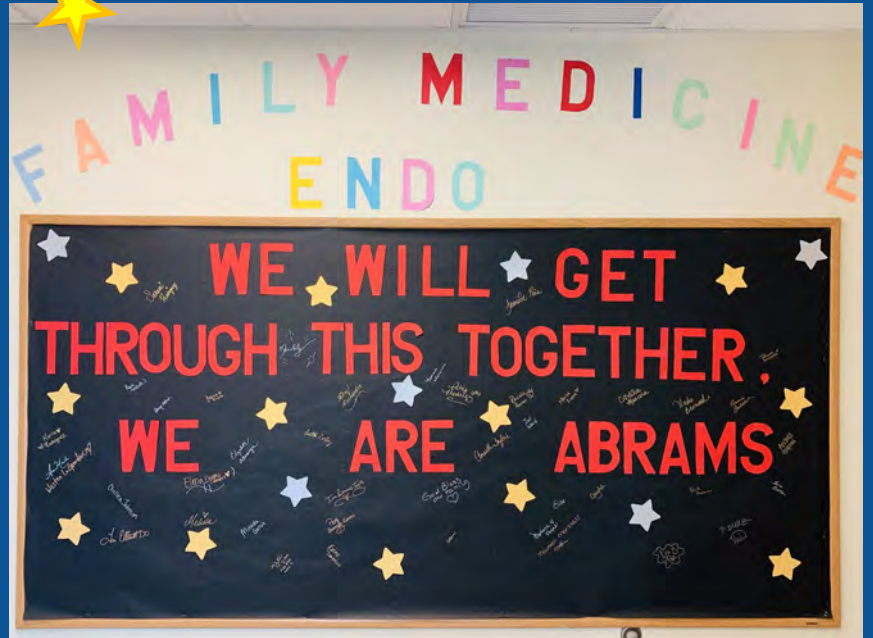

Every member of the staff at Abrams was extremely welcoming to myself, Tai Elliott, and the residents from Alvernon. We were all new arrivals to your daily flow and structure and you all reached out to help. The staff knowledge, commitment, and personalities were rewarding and enriching to be a part of.

Thank you for all of you. You have given me a refreshed and recharged desire to continue on our shared FCM path together

Ann Mathias, DO

Department of Family & Community Medicine

Hi Abrams TEAM!!! I want to say Thank You for everything you have done for the last 6 weeks. We have all come together to take a lead in taking care of those in our community that are sick. You all jumped in feet first and rallied as a team to take care of each other and our sick community. I am honored to work with each of you every day. As we go into Monday and starting phasing normal back into our daily life let's stay positive and work together as a team. THANK YOU ALL!!

Gina Baker

Abrams Family Medicine Clinic

Over the last four weeks the Tucson ED/ Hospital Covid-19 hotline result team has been able to provide over 2000 patients with their negative results. BUMCTS hospitals and Emergency Departments have utilized the Abrams clinic to provide positive Covid-19 test results to patients which allows for consistent follow-up care to address the specific needs of these patients. The team's partnership has also allowed for patients with negative test results who are still symptomatic to receive direct and timely care via the Abrams clinic.

For many of these patients it was their first-time experiencing Banner Health and they have been more than impressed.

Many have shared they will be transferring their care to our Health System and the Abrams Clinic. We are appreciative of everyone's hard work and effort, and look forward to continuing these collaborative efforts now and in the future to provide seamless care to Southern Arizona and neighboring areas.

Avraham "Avi" Rovinsky PT, DPT

Banner UMC South Campus

As a team, you worked quickly to meet the needs of our patients and the Tucson community. Your hard work, positive attitude, flexibility and dedication to achieving a common goal is greatly appreciated. You without hesitation focused on ensuring we met the needs of our patients. I enjoyed working with each of you.

Taiwona "Tai" L. Elliott, DO

Dear Abrams,

I couldn't have asked for a better crew to confront Covid with. From your patience, tolerance, and "onwards" attitudes—to your humor, air hugs, and fearless fortitudes, I thank each and every one of you. I miss y'all already and can't wait to hug you for real some day. Until then, be well and call me if you need toilet paper.

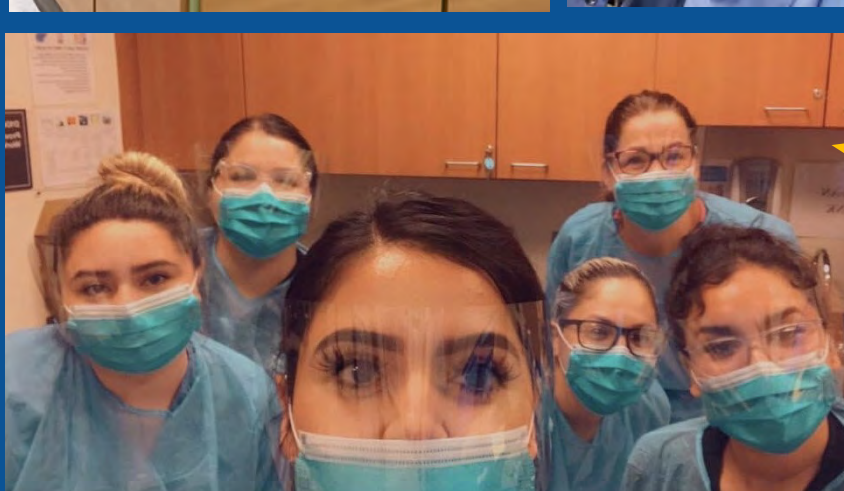

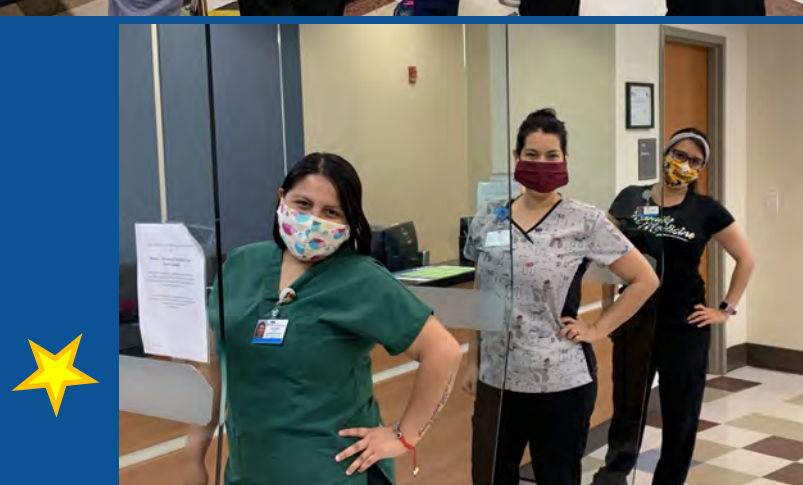

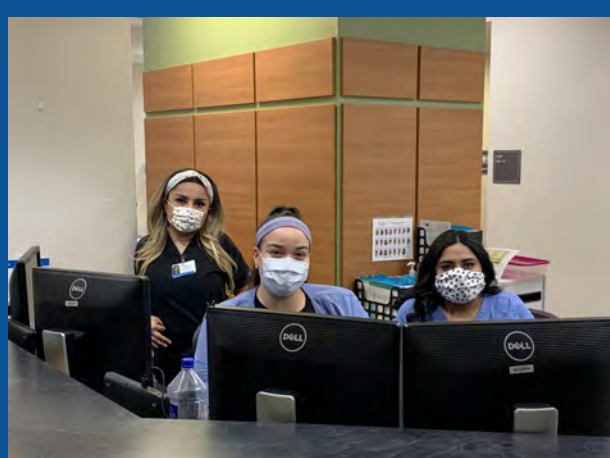

All my distance,

Dr. Patty Wang
