## Research Volunteers Wanted

A research team at the U of A is looking for people with Type 2 diabetes to provide feedback on a new mobile applications to help manage diabetes.

If you join the study, you will attend one in-person interview session with study staff at a U of A facility near Banner-UMC South Campus. The visit will last for about an hour.

You may qualify for the study if you:

- Are at least age 18
- Were diagnosed with Type 2 diabetes at least 6 months ago
- Speak and read English fluently
- Use mobile applications (“apps”) at least once a week

If you are interested in learning more about the study, please contact the project coordinator, Kari Marano at
